PROFESSIONAL SUMMARY

Full-stack developer with professional experience at PT Indo Emkay Abadi since June 2022. Progressed from Junior Developer to Supervisor while contributing to application development, delivery operations, and AI-assisted workflows. Selected portfolio projects demonstrate approval gates, audit trails, Docker-based delivery, and security-conscious engineering.

PROFESSIONAL EXPERIENCE

PT Indo Emkay Abadi - Supervisor | June 2024-Present

- Contributes to full-stack application development and software delivery responsibilities.
- Supports workflow applications across frontend, backend, data, and Docker-based operations.

PT Indo Emkay Abadi - Junior Developer | June 2022-May 2024

- Contributed to application development during the first two years of professional experience.
- Built practical experience working with web, backend, data, and version-control technologies.

SELECTED PROJECTS

Pentest Engagement Console - Authorized testing workflow covering scope, approvals, isolated runs, evidence, findings, remediation, retests, and reporting. **Stack:** Next.js, FastAPI, PostgreSQL, Redis, Docker.

ISO Ready - ISO 9001 readiness workflow with 671 checklist items, scoring, critical-gap tracking, registers, audit trails, and evidence management. **Stack:** React, TypeScript, Cloudflare D1.

AI Ticket Orchestrator - Structured AI-assisted intake, approval gates, lifecycle tracking, role-aware access, callbacks, and audit trails. **Stack:** Node.js, Express, Docker.

EDUCATION

Universitas Raharja - Bachelor of Computer Science | 2019-2023 | GPA 3.85

SMK Negeri 3 Tangerang - Computer and Network Engineering | 2016-2019

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, HTML5, Tailwind CSS | **Backend:** Node.js, Express, FastAPI, PHP, Laravel

Languages: Python, JavaScript, C# | **Data & APIs:** PostgreSQL, GraphQL

Delivery & Operations: Git, GitHub, Docker, Linux | **Practices:** AI-assisted workflows, approval gates, audit trails, security testing
